

HVAC & R Tech Position Available.

2011-12-09 05:00:00 by Website_Design

Alpine Air, Inc, is seeking a qualified HVAC&R Diagnostic Technician with a minimum of three years in-field experience as a Service Technician. Refrigeration experience a plus, but not required.

Must be EPA certified, and have reliable means of transportation.

Alpine Air, Inc., is a women-owned and operated company that requires pre employment drug screening, background screening, and driver's license check. (Random drug screenings are performed during the course of employment. A failed drug screening will result in immediate termination.)

If you feel you have the right qualifications, please [complete the form](#) and MAIL as instructed. Phone calls will not be accepted. If we feel you have the right experience, after reviewing your application, we will contact you to discuss position and schedule an interview.
